

PRODUCT DATA SHEET

Bioworld Technology,Inc.

Trypsin-1 polyclonal antibody

Catalog: BS6284 Host: Rabbit Reactivity: Human, Mouse

BackGround:

Trypsin is a 24 kDa enzyme of the serine proteinase family. It is produced in the pancreas as an inactive precursor, trypsinogen, but the active enzyme is located in the gastrointestinal tract where it degrades proteins to large peptides. Trypsin prefers lysine and arginine residues. One of the substrates for trypsin is chymotrypsinogen which is cleaved to produce active chymotrypsin. High levels of immunoreactive trypsin in the bloodstream can indicate pancreatic malfunction and this indicator is used to screen for and diagnose Cystic Fibrosis.

Product:

1mg/ml in PBS with 0.1% Sodium Azide, 50% Glycerol.

Molecular Weight:

~ 27 kDa

Swiss-Prot:

P07477

Purification&Purity:

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

Applications:

WB: 1:500~1:2000 IHC: 1:50~1:200

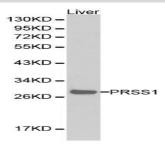

Storage&Stability:

Store at $4 \, \mathbb{C}$ short term. Aliquot and store at $-20 \, \mathbb{C}$ long term. Avoid freeze-thaw cycles.

Specificity:

Trypsin-1 polyclonal antibody detects endogenous levels of Trypsin-1 protein.

DATA:

WesternBlot (WB) analysis of Trypsin-1 polyclonal antibody in extracts from mouse liver tissue.

Note:

For research use only, not for use in diagnostic procedure.
