

## ASZ1 Polyclonal Antibody

Catalog: BS65457

Host: Rabbit

Reactivity: Human, Mouse, Rat, Horse,

### BackGround:

ASZ1 (ankyrin repeat, SAM and basic leucine zipper domain-containing protein 1), also known as ANKL1, ALP1 (Ankyrin-like protein 1), GASZ (germ cell-specific ankyrin, SAM and basic leucine zipper domain-containing protein) or Orf3, is a 475 amino acid protein that is suggested to function as a signal transducer during germ cell maturation. Localized to the cytoplasm of pachytene spermatocytes, early spermatids and oocytes, ASZ1 is primarily found in adult testis and ovary where it mediates protein-protein interactions. ASZ1 contains six ANK repeats, one SAM (sterile alpha motif) domain and is encoded by a gene located on human chromosome 7q31, a region that may have an important role in the development certain types of human cancer.

### Product:

0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.

### Molecular Weight:

53 kD

### Swiss-Prot:

Q8WWH4

### Purification&Purity:

affinity purified by Protein A

### Applications:

WB=1:500-2000

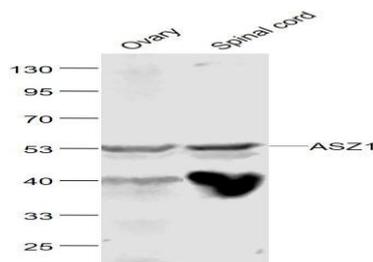

### Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

### Specificity:

ASZ1 Polyclonal Antibody detects endogenous levels of ASZ1 protein.

### DATA:

Primary: Anti-ASZ1 at 1/1000 dilution

### Note:

For research use only, not for use in diagnostic procedure.
