

## FOXP4 Polyclonal Antibody

Catalog: BS65660      Host: Rabbit      Reactivity: Hu-man, Mouse, Rat, Chicken, Dog, Cow, Horse, Rabbit, Sheep,

### BackGround:

This gene belongs to subfamily P of the forkhead box (FOX) transcription factor family. Forkhead box transcription factors play important roles in the regulation of tissue- and cell type-specific gene transcription during both development and adulthood. Many members of the forkhead box gene family, including members of subfamily P, have roles in mammalian oncogenesis. This gene may play a role in the development of tumors of the kidney and larynx. Alternative splicing of this gene produces multiple transcript variants, some encoding different isoforms. [provided by RefSeq, Jul 2008]
