

Glucocorticoid Receptor Polyclonal Antibody

Catalog: BS65758 Host: Rabbit Reactivity: Hu-
man, Mouse, Rat, Chicken, Dog, Pig, Cow, Horse, Sheep,

Background:

Steroid receptors are ligand-dependent, intracellular proteins that stimulate transcription of specific genes by binding to specific DNA sequences following activation by the appropriate hormone. Glucocorticoids are a family of steroids necessary for the regulation of energy metabolism and the immune and inflammatory responses. These compounds exert their effect through their interaction with the glucocorticoid receptor (GR) and that complex's subsequent association with DNA. All normal mammalian tissues examined to date have been shown to contain glucocorticoid receptor.

Product:

0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.

Molecular Weight:

87 kD

Swiss-Prot:

P04150

Purification&Purity:

affinity purified by Protein A

Applications:

WB=1:500-2000

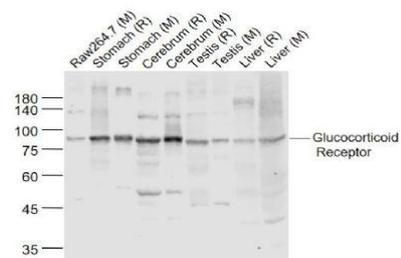

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Specificity:

Glucocorticoid Receptor Polyclonal Antibody detects endogenous levels of Glucocorticoid Receptor protein.

DATA:

Primary: Anti-Glucocorticoid Receptor at 1/1000 dilution

Note:

For research use only, not for use in diagnostic procedure.
