# PPP2R1A/PPP2R2A/PPP2R1B polyclonal antibody

Catalog: BS77822 Host: Rabbit Reactivity: Human, Mouse, Rat

#### **BackGround:**

Protein phosphatase 2 is one of the four major Ser/Thr phosphatases, and it is implicated in the negative control of cell growth and division. It consists of a common heteromeric core enzyme, which is composed of a catalytic subunit and a constant regulatory subunit, that associates with a variety of regulatory subunits. The constant regulatory subunit A serves as a scaffolding molecule to coordinate the assembly of the catalytic subunit and a variable regulatory B subunit. The B regulatory subunit might modulate substrate selectivity and catalytic activity.
