

CD321 Recombinant Protein

Catalog: NCP0316

Host: E.coli

Tag: His-tag

BackGround:

Seems to play a role in epithelial tight junction formation. Appears early in primordial forms of cell junctions and recruits PARD3.

The association of the PARD6-PARD3 complex may prevent the interaction of PARD3 with JAM1, thereby preventing tight junction assembly.

Plays a role in regulating monocyte transmigration involved in integrity of epithelial barrier. Ligand for integrin alpha-L/beta-2 involved in memory T-cell and neutrophil transmigration. Involved in platelet activation.
