

## PRDM3 (M1) polyclonal antibody

Catalog: BS2049

Host: Rabbit

Reactivity: Human

### BackGround:

PRDM3 can be produced either as a separate transcript and as a fusion transcript with EVI1. A chromosomal aberration involving PRDM3 is found in a form of acute myeloid leukemia. The myelodysplastic syndromes (MDS, formerly known as "preleukemia") are a diverse collection of hematological conditions united by ineffective production of blood cells and varying risks of transformation to acute myelogenous leukemia.
