

**TLN2 Recombinant Rabbit mAb**

Catalog: BS49819

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

This gene encodes a protein related to talin 1, a cytoskeletal protein that plays a significant role in the assembly of actin filaments and in spreading and migration of various cell types, including fibroblasts and osteoclasts. This protein has a different pattern of expression compared to talin 1 but, like talin 1, is thought to associate with unique transmembrane receptors to form novel linkages between extracellular matrices and the actin cytoskeleton.
