

## TNFRSF6B monoclonal antibody

Catalog: MB22569

Host: Mouse

Reactivity: Human

### BackGround:

This gene belongs to the tumor necrosis factor receptor superfamily. The encoded protein is postulated to play a regulatory role in suppressing FasL- and LIGHT-mediated cell death. It acts as a decoy receptor that competes with death receptors for ligand binding. Over-expression of this gene has been noted in gastrointestinal tract tumors. Read-through transcription into this gene from the neighboring upstream gene, which encodes regulator of telomere elongation helicase 1 (RTEL1), generates a non-coding transcript.

### Product:

Purified antibody in PBS with 0.05% sodium azide

### Molecular Weight:

32.7kDa

### Swiss-Prot:

O95407

### Purification&Purity:

The antibody was affinity-purified from mouse ascites by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

### Applications:

FC:1/200 - 1/400

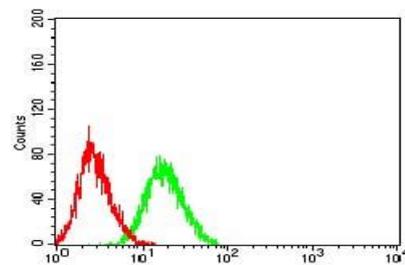

### Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

### Isotype:

Mouse IgG1

### DATA:

Flow cytometric analysis of HL-60 cells using TNFRSF6B mouse mAb (green) and negative control (red).

### Note:

For research use only, not for use in diagnostic procedure.
