

CASP6 monoclonal antibody

Catalog: MB22793

Host: Mouse

Reactivity: Human

BackGround:

This gene encodes a member of the cysteine-aspartic acid protease (caspase) family of enzymes. Sequential activation of caspases plays a central role in the execution-phase of cell apoptosis. Caspases exist as inactive proenzymes which undergo proteolytic processing at conserved aspartic acid residues to produce two subunits, large and small, that dimerize to form the active enzyme. This protein is processed by caspases 7, 8 and 10, and is thought to function as a downstream enzyme in the caspase activation cascade. Alternative splicing of this gene results in multiple transcript variants that encode different isoforms.

Product:

Purified antibody in PBS with 0.05% sodium azide

Molecular Weight:

33.3kDa

Swiss-Prot:

P55212

Purification&Purity:

The antibody was affinity-purified from mouse ascites by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).

Applications:

FC:1/200 - 1/400

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Isotype:

Mouse IgG2a

DATA:

Flow cytometric analysis of HeLa cells using CASP6 mouse mAb (green) and negative control (red).

Note:

For research use only, not for use in diagnostic procedure.
